CAREER OBJECTIVE

Computer Science student specializing in Data Science, Artificial Intelligence (AI), Machine Learning (ML) and Full-Stack Development. Skilled in Python, C++, Java, SQL, MongoDB, HTML, CSS, JavaScript, and Git/GitHub. Seeking opportunities in software development, data engineering, and AI-driven applications.

EDUCATION

2023 - 2026

Graphic Era Hill
University

Bachelor of Computer Applications

2022 - 2023

Ever Green Sr.
Sec. School

Class XII (Intermediate Commerce + Math)

2020 - 2021

Ever Green Sr.
Sec. School

Class X (High School)

INTERNSHIP

2025

Deloitte

Virtual Internship

- Completed Deloitte Technology Job Simulation, applying **coding, development, and problem-solving** to real-world business scenarios.
- Gained hands-on experience in **data analysis, debugging, and report preparation** using professional tools.
- Enhanced **analytical thinking and client-oriented communication skills** through case-based project tasks.

PROJECTS

Medical Report Summarizer (AI Project)

- Proactively improved an **AI-based system** that reduced manual report review time by 60%, extracting and summarizing key details from 200+ medical reports using **Python** and **NLP**.
- Implemented OCR to extract structured information from scanned/PDF reports, including patient details, disease data, and doctor's recommendations.

- Designed summaries in simple, doctor-like language to make medical data easier for patients to understand.

Food Delivery System (Full-Stack Project)

- Engineered an interactive food delivery platform with modern user interface and user experience for browsing, ordering, and tracking meals.
- Implemented **user authentication**, **cart management**, and order tracking features using full-stack technologies.
- Integrated database management (**MySQL**) to handle restaurants, menus, and customer orders efficiently.

SKILLS

Technical Competencies

- **Fundamental:** OOPs, Data Structure, Algorithms
- **Programming:** C, C++, Python, Java
- **Development:** HTML, CSS, JavaScript
- **Tool & Version Control:** Git, GitHub
- **Databases:** MySQL, MongoDB
- **AI/ML:** Machine Learning concepts, model building, basic AI techniques

Soft skills

- Problem-Solving & Decision-Making
- Team Work
- Adaptability
- Communication
- Creativity & Innovation
- Time Management

COURSES AND CERTIFICATIONS

- **Oracle Cloud Infrastructure Certified AI Foundations Associate** – Oracle University
- **Software Engineering Job Simulation** – JPMorgan Chase & Co.
- **Technology Job Simulation** – Deloitte
- **Communication Skills** – TCS ION

EXTRACURRICULAR ACTIVITIES

- Participated in a 24-hour **Hackathon** with 120+ participants; successfully engineered a prototype web app in a team of 4, developing innovative solutions using front-end technologies (**HTML, CSS, JavaScript**).
- Led the team's strategic planning during Free Fire Tournament, increasing strategic play success rate by 15%, resulting in the team reaching the quarterfinals in a highly competitive bracket.
